DOD SAFE INCREASED PROCESSING TIMES

>>>

An external network issue is causing increased upload and download times for DOD SAFE users.

It is encouraged that, where mission allows, users performing large file transactions (> 2 GB) do so outside of core hours. (0900-1600ET)

Network engineers are investigating and once it has been resolved, this banner will be removed. It is not necessary to contact the GSD.

PLEASE NOTE

NO CLASSIFIED INFORMATION IS ALLOWED ON DOD SAFE

Any files containing CUI, PII and/or PHI must be encrypted in accordance with DoD policy prior to uploading or by checking the Encrypt every file box in this form! Cyber.mil clarifies policies about transmitting CUI, PII and PHI.

It is the user's responsibility to only send files containing CUI, PHI and PII to cleared recipients with appropriate safeguards to protect the information.

DO NOT send files to organizational mailboxes or distribution groups, as there is no way to guarantee that only cleared recipients can access the files.

Uploaded files are scanned for viruses.

Do not share or disclose drop-off information in public forums.

This web page will allow you to drop-off (upload) one or more files (up to 8 GB total) for a DoD user. The recipient will receive an automated email containing the information you enter below and instructions for downloading the file.

DoD SAFE does not guarantee delivery of documents within a specified time period under 4 hours. File transfers of malware or malicious files are not supported.
