Copy all pages of this Elevation Certificate and all attachments for (1) community official, (2) insurance agent/company, and (3) building owner.

Comments (including type of equipment and location, per C2(e), if applicable)

There is no A/C or water heater servicing the building. Fuse panel is 3.8' above grade. I am unsure of the correct building diagram. I have selected the diagram that in my opinion most closely resembles the building being certified. It is the responsibility of the reviewer of this certificate to inspect the property and concur or give notice to the preparer of the certificate upon non-concurrence regarding diagram selection.
