

HONORE AVENUE
KEY MAP

NOTES:

The Specific Purpose of this survey is to monument the right-of-way for this section of Honore Avenue. The initial baseline control was established by DMK Associates, Inc. and recovered by WilsonMiller Inc. on June 19, 2009 prior to construction. After construction, APAC, Florida, Inc. reset the baseline control. This map represents the right-of-way along the surveyed baseline. A Right-of-Way survey was not done for this project as it was a design/build project and parcel takings were not anticipated. Plats that are adjacent to the right-of-way were placed per plat and not surveyed individually by WilsonMiller as we were to utilize the DMK survey data for this project. Takings that were done with the DMK project were added and labeled to bring the right-of-way up to date prior to the begin of construction. Right-of-way monuments were set on fee simple takings only.

Bearings shown hereon are Grid Bearings established by GPS observations using a Trimble 4800 base station and remote and based on observations taken on Sarasota County stations 175 84 A04 and 175 83 A53 established for FDOT. Coordinates so established have been transferred to the site producing a bearing of N.00°23'26"E. for the centerline of Honore Avenue running along the west line of the Northeast 1/4 of Section 26, Township 36 South, Range 18 East, Sarasota County, Florida.

Lands shown hereon were not abstracted for rights or claims of parties in possession, rights of way and/or easements, either of public record or unrecorded.

Right-of-way lines as shown are based on Ownership & Encumbrance reports provided by Sarasota County. After construction, Sarasota County provided the recorded documents for any easements or takings done during the course of the project.

This survey is not intended to delineate the regular jurisdiction of any Federal, State, Regional or Local Agency, Board or Commission or other entity.

Unless it bears the signature and the original raised seal of a Florida Licensed Surveyor and Mapper this drawing, sketch, plat or map is for informational purposes only and is not valid.

This survey does not reflect or determine ownership.

Symbols shown hereon may not be drawn to scale.
